Re: Annual Report, Blue Hill Project, S/015/067, Emery County, and Mancos Shale Project, S/019/032, Grand County, Utah

Dear Mr. Brannon:

Thank you for submitting the annual reports for the Mancos Shale and the Blue Hill Projects received in our office January 23, 1995. You stated that you no longer held the State lease for the Blue Hill Project. Even though the lease has been dropped, you are still responsible for reclaiming the site to conform to the Mined Land Reclamation Act and SITLA (formerly State Lands) standards (which you may have already done). Before you can formally be released from any further reclamation obligations at this site, the Division will need to perform a site inspection of the project area.

When in the area Division staff will perform an inspection of the site⁵. If you wish to attend the inspection, please contact me to arrange a date and time which are mutually convenient. If you have any questions regarding this letter, please contact me.

Sincerely,

A handwritten signature in cursive script, reading 'Anthony A. Gallegos'.

Anthony A. Gallegos
Reclamation Engineer
